THE WOOD HEARING

The Senate Committee Concluded Its Investigation of Charges Made Against the General.

SECRETARY ROOT FOR DEFENSE.

It is Understood the Committee Will Recommend Confirmation of His Appointment as Major General.

A Minority Report Will Be Made By the Opposing Members of the Committee—Secretary Root Warmly Defended Gen. Wood.

Washington, Dec. 17.—The senate committee on military affairs Wednesday night concluded its investigation of charges against Leonard Wood, filed for the purpose of preventing his confirmation as major general. Secretary Root was the only witness Wednesday. He was on the stand for two and a half hours at the forenoon session and occupied the attention of the committee from 8 o'clock until 11:20. The committee will meet Thursday to prepare its report. It is understood that confirmation will be recommended by a vote of 8 to 2. A minority report will be made by the opposing members of the committee. The testimony of Secretary Root is practically the only defense that has been made of Gen. Wood in the hearing which has extended since about the beginning of the extraordinary session of congress. This testimony, however, covered the entire range of the evidence produced against Gen. Wood and was supported in many instances with correspondence and other data taken from records at the war department covering the period of Gen. Wood's administration as governor general of Cuba. Secretary Root undertook to assume the whole responsibility for the orders issued by Gen. Wood affecting the judicial system in Cuba and concerning the concession granted to the Jai Alai Co. at Havana. He justified the acceptance by Gen. Wood of the present of a silver set from the Jai Alai Co.

At the forenoon session of the committee Secretary Root was given every latitude in telling his story of the affairs in the island and refuting the charges that had been made by a number of witnesses, but at the evening session questions were asked by Senator Teller which confined the secretary to the Runcle letter, the Jai Alai concession, the Rathbone trial, Gen. Wood's friendship for Bellairs and the question of seniority as a means of recognizing military service. Many of the questions were pointed and in some cases severe upon Gen. Wood, but in every case Gen. Wood found a warm defender.

Washington, Dec. 17.—Secretary Moody Wednesday instructed Rr. Adm. Coghlan to send a war vessel to Cartagena to bring United States Minister Beaupre to Colon, the minister having decided to avail himself of the leave of absence granted him some time ago. That the proper courtesy may not be lacking either to Mr. Beaupre or to the Colombian government it is expected at the navy department that Rr. Adm. Coghlan will proceed to Cartagena in command of a small squadron, leaving an adequate force off Colon.

LOST ON THE RACES

Secretary McKown of California State University Confesses He is a Defaulter.

DEFALCATIONS \$20,000 OR MORE

He Was Suspended by President Ide Wheeler and Placed Under Arrest by the Authorities.

McKown Has Been in the University 20 Years, His Salary Being \$2,400 a Year—Speculation Has Been Going On Since 1898.

Berkeley, Cal., Dec. 17.—W. A. McKown, secretary of the board of regents of the state university, confessed Wednesday to President Benjamin Ide Wheeler that he was a defaulter to the amount of \$20,000 and possibly more. Most of the money was lost at the race track. Mr. McKown has been suspended by President Wheeler and placed under arrest by the local authorities.

Secretary McKown's arrest followed the discovery that he had attempted to pay a racing debt with a check made out to him personally by Mrs. Phoebe Hearst. This check was for \$1,160 and was handed over by McKown to Bookmaker John Davis in payment of markers on the races for \$1,120. Davis gave McKown \$40 in change and deposited the check in the Western national bank, from which it turned up to expose the affair.

President Wheeler said Wednesday: "I have suspended McKown from office pending the action of Gov. Pardee, who is president of the board of regents, and have placed the office in charge temporarily of my private secretary, Victor Henderson."

"From what we have thus far learned, it appears that McKown at different times since 1898 has used sums of money that came into his hands and instead of depositing them with the treasurer, has appropriated them to his own use.

"He covered this up, as far as we know, by taking corresponding amounts from university funds by charging them as expenditures under the head of one or the other university funds.

"He says he has not falsified his bookkeeping by making false entries or in any other way. So far as we know in this fiscal year, the total loss amounts to \$4,200.

"The total amount we do not know. He said he thought it would be \$20,000 or more. He had spent it on the race track."

President Wheeler spoke highly of McKown's personality and was visibly affected in telling how his trust had been betrayed.

McGowen has been in the university about 20 years, is unmarried and about 40 years of age. His salary was \$2,400 a year.

Between 1 and 2 o'clock Wednesday morning burglars blew the door from the safe of the post office at Paullina, Ia., and secured \$125.

While in search of the men who committed the latter robbery, Sheriff Price, of O'Brien county, captured two of the Quimby bank robbers. The men attempted to save their booty by throwing it on the ground, but it was recovered to the amount of \$1,430.

PROHIBITION CONVENTION.

It Will Be Held in Kansas City Wednesday, June 29, 1904.

THE GILLESPIE MURDER.

If the Grand Jury Fails to Find a True Bill Trouble Will Follow.

Rising Sun, Ind., Dec. 17.—Excitement over the assassination of Miss Elizabeth Gillespie is still high. It is the sentiment here that if the grand jury fails to find a true bill in the case, trouble will certainly follow. From good authority the information has been secured, however, that the grand jury will cause several arrests to be made. It is stated that four people at least will soon be in the clutches of the law. One of these, a man who is now under suspicion and is being kept under surveillance, will be charged with murder, it is believed, and three others may be charged with being accessories to the crime. It is stated two of the latter are women.

BOATSWAIN PATRICK DEERY.

Will Be Presented With a Medal of Honor For Bravery.

Washington, Dec. 17.—It was ascertained at the navy department Wednesday that Secretary Moody in addition to a letter of commendation to Boatswain Patrick Deery, of the Peoria, who at great peril swam to the submarine boat Adder and attached a line to her, will order that a medal of honor be presented to him as an evidence of the department's appreciation of his heroism. Boatswain Deery's bravery was strongly commended by Lieut. England, commanding the Peoria, and by Adm. Harrington, commandant of the Portsmouth, Va., navy yard.

CHICAGO LIVERY DRIVERS.

A Meeting Between Them and Employers Broke Without An Agreement.

Chicago, Dec. 17.—A strike of livery drivers will probably be ordered Thursday, a mass meeting of the teamsters' union having been called for Thursday night to order the walkout. A long meeting held Wednesday night between the drivers and employers broke up without an agreement being reached and a strike is considered certain. The demand of the drivers was \$14 a week and 12 hours work. The owners offered \$12 a week, 25 cents an hour overtime, an hour and a quarter for meals and more time off.

COOPERS' STRIKE ENDED.

Agreement Signed Between the Union and Packing Trades Council.

Chicago, Dec. 17.—The first strike won by the coopers in the stock yards district in 21 years was concluded Wednesday, when the agreement was reached and signed between the cooper's union and the packing trades council on the one hand and the packers on the other. Hereafter the minimum scale is to be \$2.65, but all men earning \$3 a day or more are not to be reduced. Work was resumed Thursday morning.

DURING THE HOLIDAYS.

Philadelphia, Dec. 17.—It is expected that a general suspension of mining throughout the entire anthracite coal regions will be inaugurated with Christmas to continue until January 4. This step has already been announced by the Reading Co., and it is believed that all the other large companies will take similar action. One of the reasons for the shut down is that the production is in excess of present market requirements.

THE FEVER SCOURGE.

Two Deaths and Five New Cases Reported at Butler, Pa.

Butler, Pa., Dec. 17.—Two deaths and five new cases make up the record of the typhoid fever scourge for Wednesday. It Provides a 20 Per Cent Reduction From the Rates of Duty Under the Dingley Law.

Also a Reduction of From 20 to 40 Per Cent. From Cuban Duty on Articles Imported Into Cuba From the United States.

Washington, Dec. 17.—Senate—By the decisive vote of 57 to 18 the senate, Wednesday, passed the bill carrying into effect the reciprocity treaty with Cuba. The final vote came at the close of the day, which was marked by a debate which, while at all times animated, was never acrimonious. The principal speeches were made by Mr. Spooner for the bill and by Mr. Bailey against it. The bill passed carries into execution the treaty between the United States and Cuba, which was ratified last March. The treaty provides for a reduction of 20 per cent. from the rates of duty under the Dingley law on all Cuban articles imported into the United States and a varying reduction of from 20 to 40 per cent. from the established Cuban duty on articles into Cuba from the United States. After the passage of the Cuban treaty the senate agreed to the house resolution providing for a holiday recess from December 19 to January 4.

"NO PROTECTION FOR OPPRESSIVE TRUSTS."

William Randolph Hearst's New York American gives the above as the policy of the people of the United States in regard to the tariff. On that point, Mr. Hearst probably knows as well as any one else that there are very few trusts that are not "oppressive." The one object of the formation of combines is to hold up the American people and force them to "stand and deliver." Mr. Hearst demands "tariff reduction on trust products which the trusts sell cheaper abroad than at home." If Congress hasn't lost all sense of right and justice, it looks like it oughtn't hesitate to make such a reduction, but nothing much can be hoped for in the way of relief from a Republican Congress, elected by the combines and controlled by them. On this demand, emphasized by Mr. Hearst, the Washington Post which has always been an advocate of a protective tariff, and an assailant of that wing of the Democratic party that advocated free trade and the removal of all restrictions possible under the necessity for the present revenue, recognizes the inevitable effect of imposts laid at a rate that is practically prohibitive, and thus states some of these results:

More than three years ago one of the most experienced and capable of the trusted Republican leaders in Congress and in campaigns told his political brethren that it was impossible to defend tariff schedules under which our manufacturers could sell their products in Europe at lower prices than were exacted from domestic consumers. In an attempted reply to that it was submitted that such sales were an occasional necessity in order to get rid of surplus stocks. They were compared to the "slaughter sales" of the big department stores.

Recent events have demolished that explanation. What was represented as an occasional expedient is now practically admitted to be a permanent policy. American manufactures are regularly and largely sold abroad at prices very much below the rates demanded at the mill doors. And this is not the whole of that story. Not only are the American consumers contributing to the cheapening of manufactured articles for foreign consumers, but our railways are giving a large reduction on freight rates of those exports from factory to ship. And to still further illustrate the operations of this detestable system, the railroads advance rates on other freights, especially on cereals, to offset the concessions to manufacturers. Thus the few obtain privileges at the expense of diminished opportunities for the many. And on this, on the law which renders all this practicable, the party in power is to stand pat because an election is near at hand.

Commenting on the Post's arraignment of this iniquitous system, the Lexington Herald says:

We ask our readers to consider this statement thoughtfully and as far as possible without regard to partisan affiliations. Every consumer of American products; every American producer of agricultural products is deeply interested in this double charge; this increase in the price of that which he consumes and the added cost of transportation on his products, which means a diminished reward for what he raises; that is, his capacity to purchase is lessened, while the price of what he must buy is increased. In one sense this is a matter of politics—in that real sense of what is the government and policy that is of benefit to the citizen; in another sense, it does not rightly fall within the scope of mere partisan politics. It is the prostitution of both party and government to the unjust and iniquitous advantage of one class of citizens at the expense and cost of the vast majority of the people; it is the levying tribute under the forms of taxation on the great mass of the people for a comparatively small class of citizens. And the inexplicable fact is that this discrimination is made by the very voters and people who are hurt by it. Those who are benefitted could not carry a

single State—perhaps not a single district; the policy is adopted by the votes of those who are plucked by it; and they do it in the name of party and under the guise of patriotism.

If the people really desire any relief from the extortionate grasp of the trusts they certainly ought to know by this time that they can't expect it as long as they vote for a Republican Congress and a Republican President. It's up to the voters to settle this question, and they can do it next fall.

WHERE'S THE CASH?

Other Counties Kicking Because Mason Shows so Little of It Listed For Taxation.

[Fleming Gazette.]

A report from the State Board of Equalization has just been issued showing the equalized assessments of the different counties for last year. Below are the assessments of the amount of cash on deposit given in by the counties named:

Fleming.....	\$152,075
Mason.....	66,630
Lewis.....	42,458
Nicholas.....	121,219
Robertson.....	26,602
Bath.....	116,045

By this list it will be seen that Mason County, by far the wealthiest one of the list, gives in less than three of the others. Only \$66,630 is listed in Mason, whereas the bank reports of that county show from \$1,500,000 to \$2,000,000 cash on deposit, showing that a mere bagatelle of the cash there is being listed for taxation, while virtually all of it is being bid away by the tax dodgers.

HUNDRED POUND RAILS

To Take the Place of Those of Lighter Weight on the C. and O.

The Chesapeake and Ohio will by some time next year have rails weighing 100 pounds to the yard laid all the way from Cincinnati to Gordonsville, Va., a distance of 522 miles.

From Ashland, Ky., to Gordonsville, a distance of 380 miles, rails of this weight are now down.

The heavy rails to be put down on the 142 miles of road between Ashland and Cincinnati are now being distributed from Ashland this way as fast as they are received from the rail mills.

The rails taken up and which are replaced by the heavier rails weigh seventy-five pounds to the yard.

The Building Committee of the Kentucky Exhibit Association has decided to abandon the plan of having a mosaic map in the center of the first floor of the Kentucky Building at the World's Fair. In its place there will be installed attractive exhibits of forestry and minerals. These will probably be so built as to pierce the light well of the second floor. They will be in addition to the other exhibits, such as agriculture, education, etc., in other parts of the building.

The BULLETIN is in receipt of a letter from Mr. E. Egenberger, of New York, who says he landed in Maysville fifty-three years ago, and taught school in the Gault neighborhood ten miles out the following six months. He remembers with pleasure the Gault families, the Biggars family and Esquire McCarthey and says those were halcyon days for him. Mr. Egenberger is now engaged in inducing young men of the North to immigrate to South Carolina, where innumerable plantations of fertile land are lying idle. His address is Room 1306, Vincent Building, 302 Broadway.

"A Friend of the Family." Lovers of good clean comedy will have an opportunity to-night to witness in "A Friend of the Family" one of the brightest and cleverest of this style of entertainment. Like all successful farces of the past decade it had its origin in the German, where under the name of "Der Familiär Freund" it enjoyed a phenomenal run of 215 nights at the Court Theatre, Berlin. See this funny comedy at the opera house to-night. You will enjoy it. Secure seats at Ray's.

PITHY POINTS.

Taylor is playing the possum act at Indianapolis just as Youtsey played it at Frankfort. The case of Taylor pursuing law in Indiana might be termed the continuation of his run from law in Kentucky.

Durbin can't look for his protege Taylor to make a success in the pursuit of law when he is teaching him how to succeed in evading it.

If Taylor hasn't been successful in the pursuit of law in Indiana he can console himself with the fact that he has been a success in eluding it in Kentucky.

PLANS ARE MATURING.

Forestry Exhibit From Kentucky at Exposition Will Be Very Elaborate.

No more attractive exhibit at the World's Fair at St. Louis is to be made of Kentucky's products and resources than that in the Palace of Forestry, Fish and Game. In this building, as well as in all others on the exposition grounds where Kentucky is to have a part, the association has been looked upon with favor by the chief of the department.

Kentucky's forestry space is on two of the main aisles of the building and almost in the center, between the two chief entrances. Mr. A. N. Struck, of Louisville, the chairman of the committee, and Mr. William Boa, the field representative thereof, have for counsel and assistance in their work the following well-known gentlemen: Clarence R. Mengel, Girard Alexander, Cecil Erasier, Gen. John B. Castlemann and Ernest Kettig, of Louisville. The forestry exhibit from Kentucky, representing seventy-odd different varieties of commercial timber, will be made as rustic in appearance as possible. A twelve-foot partition is to separate Kentucky from her neighbor, and on this partition will be displayed all the products of forestry with six-inch sections from logs. It was first suggested by Dr. Tarleton H. Bean, the Chief of the Department of Forestry for the Exposition, that the timber display be made in eight-foot sections, so cut as to show all the grains of the wood. To utilize space, however, it has been determined to show only six-inch sections. In this way not only is it possible to give a good view of every variety of timber in the State but the finished products from the same. Some kind friends of the association living in Eastern Kentucky have brought to the attention of the organization a number of massive trees in different counties which approach in size the monsters from California. Long sections of these trees will be shown in the out-door forestry exhibit.

Dr. Bean, in a recent talk with an officer of the association, appeared anxious to have Kentucky to include in her space in his department the medicinal plants of the State and the seeds from the various trees. He also wants mounted specimens of fish and game shown and, in this connection, it may be mentioned that the association is endeavoring to get the Polytechnic Society of Louisville to let it have its wonderful collection of native Kentucky bird skins now in its possession. This collection was made by Mr. Charles Wickliffe Bockham, a relative of Governor J. C. W. Bockham, at the time connected with the Smithsonian Institute at Washington. There are three thousands specimens in the collection, showing the difference in plumage especially.

Kentuckians will be interested in knowing that Dr. Bean has assigned John J. Tully, of Louisville, a space twenty by twenty-one feet for a display of his hand-made fish nets, etc. Dr. Bean wants Mr. Tully to give all the life possible to this exhibit and has invited him to manufacture the fish nets in the space allotted to him.

FROZEN OVER.

River Closed Last Night and Navigation Entirely Suspended—Courier Caught in Gorge at Ironton.

The open space in the river between the ice gorge below town and the gorge at Brooks' Bar froze over last night. The ferryboat Laurance tried the new ice this morning, but succeeded in making only one trip. Captain Phister ran her in below the piers, and concluded to quit until the weather moderates and the break comes.

Navigation is entirely suspended, the first time this early in the season for years. The freeze up is largely due to the low stage of water, the local marks showing less than four feet. The current was not strong enough to keep the ice moving.

The steamer Courier was caught in an ice gorge just below Ironton and is reported in a very dangerous position.

GUILTY OF MURDER.

Negro Who Formerly Lived at Washington Convicted of Killing His Wife.

ELYRIA, OHIO, December 15.—John Bennett, colored, of Covington, Ky., was found guilty of murder in the first degree here to-day for killing his wife in Oberlin on Oct. 18.

He forced carbolic acid down her throat and afterwards hit her on the head with a brick.

The testimony of the two Cincinnati negroes, George McCann and En. Ivory, concerning threats that Bennett made against his wife was the most damaging evidence.

A peculiar condition of affairs was discovered Wednesday in the water main supplying Mr. R. B. Lovel's grocery and residence. The water suddenly stopped running in the house and an examination disclosed the fact that the pipes were not frozen. Mr. Larry Langford, the plumber, then had his men to dig down to the connection with the principal main in the street, and was surprised to find it turned off. The connection is under the street railway track, and the only way to account for the shutting off of the water is that the weight of the cars in passing over the main had gradually turned off the connection.

THE TOBACCO TRUST.

Congressman Trimble Thinks His Bill Now Pending Will Afford the Farmers Some Relief.

Congressman South Trimble of the Seventh Kentucky district has introduced the following bill for the relief of the farmers and tobacco growers of the United States:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That farmers and growers of tobacco shall hereafter have the right to sell tobacco in the raw and unadulterated, of their own growth, in any quantity, either in the leaf, twist, or such other form as they may wish, free from any tax or charge, or being in any manner subject to any statutory regulation on the part of the Government of the United States. All statutes in conflict therewith are hereby repealed.

In a circular letter to farmers and growers Mr. Trimble says: "Its passage will prevent the arbitrary fixing of the price of raw leaf, or the manufactured product. It will be an equitable, automatic governor of prices, protecting both producer and consumer, and working no injury to the manufacturer who is satisfied with a legitimate profit on his capital. This bill has been indorsed by the White Burley Tobacco Growers' Association of Kentucky, the only organization of tobacco growers in the United States. Every member of the Kentucky delegation in Congress is enthusiastically supporting it, but there is no influence so potent before Congress as a direct petition from the people. I want one hundred thousand citizens to petition Congress through their members, urging the passage of this bill. Blank petitions will be furnished upon application. Your hearty co-operation is most earnestly desired."

Washington, Dec. 17.—As a result of Minister Leishman's advices respecting the Alexandretta affair, the state department has requested the navy department to place a warship at the disposal of Consul Davis, now at Beirut, upon which he might return to Alexandretta, at his pleasure. It is believed the Brooklyn will be selected. It is left to the consul to arrange the terms of his reception.

At the request of Minister Allen, at Seoul, who reports considerable uneasiness and rioting in Corea, the state department has suggested to the navy department that a warship be sent to Corean waters. It is probable the Wilmington will be detailed for this purpose.
